

LAS GALLINAS STORAGE PONDS

Saturday, Sept 19

9:00 am to 12 Noon

With Jim White

Let's start off the season of weekend birding trips with a Saturday morning stroll through this good area 'close-to-home'. The open level paths around the ponds offer children and adults a great place to watch 'up close' the varied bird life both on the water and on the vegetated islands. Hawks will be seen flying overhead or hunting low over the adjacent wetlands.

From Hwy 101 in northern San Rafael, take the Smith Ranch road exit, go east to the McInnis Park entrance, turn left immediately after crossing the railroad tracks and meet at the parking lot at the end of this road. Bring water and snacks!
